

University City Public Library -Appropriate Use of the Library Policy

The University City Public Library is a "City Library" and therefore subject to Sections 182.140 to 182.301 RSMo on "City Libraries". Section 182.200.2 RSMo provides that the Board of Trustees "shall make and adopt such bylaws, rules and regulations for their own guidance, and for the government of the library, as may be expedient, and not inconsistent with sections 182.140 to 182.301." The Revised Missouri Statutes [RsMo.] §182.230 (Supp. 2006) Section 182.230 RSMo provides that every library and reading room "shall be forever free to the use of the inhabitants of the city where located, always subject to such reasonable rules and regulations as the library board may adopt in order to render the use of the library and reading room of the greatest benefit to the greatest number", and the "board may exclude from the use of the library and reading room any and all persons who willfully violate such rules."

The Board of Trustees of the University City Public Library welcomes visitors and encourages visitors to use the resources of the public library to meet their informational and recreational reading needs. The Board acknowledges that there are several appropriate uses for library facilities and that behavior suitable for some occasions and spaces within the Library is not appropriate for others. The rules listed below, governing patron use of the University City Public Library, attempt to assure a reasonably safe and pleasant environment for staff and patrons; to protect the right of the public to use library services and materials and to protect library resources and facilities. These rules are intended to guide patrons and staff so that they may conduct themselves in a manner consistent with the purposes and functions of the Library and avoid affecting the appropriate use of the Library by fellow patrons. The Board of Trustees encourages children to use the Library. The safety and responsibility for the well being of those children, however, lies solely with the parent/guardian or assigned chaperon of those children, not with Library personnel. These rules are intended to be illustrative rather than all inclusive. Weapons are prohibited on Library property except as permitted under Missouri law.
